## **Data Declaration**

## Table 1

Incidents, Offenses, Victims, and Known Offenders, by Bias Motivation, 2011

The FBI collects these data through the Uniform Crime Reporting Program's Hate Crime Statistics Program.

## **General comments**

- This table presents the number of hate crime incidents, offenses, victims, and known offenders distributed by bias motivation.
- The Hate Crime Statistics Program collects data about both single-bias and multiple-bias hate crimes. A single-bias incident is defined as an incident in which one or more offense types are motivated by the same bias. A multiple-bias incident is defined as an incident in which more than one offense type occurs and at least two offense types are motivated by different biases.

## Methodology

The data used in creating this table were from all law enforcement agencies submitting one or more hate crime incidents for at least 1 month of the calendar year. The published data, therefore, do not necessarily represent reports from each participating agency for 12 months or 4 quarters.
